EPPS'S COCOA

BREAKFAST. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected exces, Mr. Epps has provided our breakfast tables with a dalicately-flavored beverage which may save us many heavy doctor's bitls. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Bundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article in the Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets, labelled :-

SATURDAY MARCH 25, 1882,

European Correspondence.

[FROM OUR OWN CORRESPONDENT,] LETTER No. 77.- L. NDON, Feb. 10, 1882.

THE BRITISH FLEET IN THE PACIFIC. Rear-Admiral Fredk. Stirling in the Triumph, flagship on the Pacific station, sailed from Callan December 29th, and arrived at Panama on January 23:d, where the command of the station was handed over to the new Commander-in-Chief, Rear-Admiral Algernon M. Lyons, who hoisted his flag on board the Triumph on the same day Admiral Stirling comes home by the mail steamer from Aspinwall. H. M S. Thetis was also at Panama at the time, and on the 25th ult., Admiral Lyons sailed with the Triumph and the Thetis for Callao. At this place he was to neet the following vessels of the Pacific squadron: Champion, Gannett (ordered there on arrival from Honolulu and Tahiti), Kingfisher, Mutine, and Sapples. With these seven war vessels under his command, the Admiral intended to form a cruising squadron, which will probably also

pay a visit to Hawaii. According to the new Navy-List the following vessels now compose the British fleet in the

Triumph (ironclad), 14 guns, 5640 tons, 4809 horse-power, flagship, Captain Aitcheson; Champion, 14 gans, 2380 tons, 2340 h-p., Capt. Geo. R. Hope; Thetis, 14 guns, 1860 tons, 2270 h-p., Capt. J. W. Stevens; Mutine, 6 guns, 1137 tons, 1120 h-p., Commander Fredk, Edwards; Garnett, 6 gans, 1130 tons, 1110 top., Commander E. G. Bourke; Kingfisher, 6 guns, 1130 tons 1090 h p., Commander R. H. Thornton; Pelican, 6 guns, 1130 tons, 1060 h-p., Com-mander F. R. Dicken; Sappho, 4 guns, 940 tons, 880 h-p., Commander B. F. Clark; Rocket, 4 guns, 603 tons, 630 h-p., Licut. Commander V.

The Pelican, however, has been ordered to return and has already sailed for home by way of the Straits of Magellan. She will be replaced by the new composite sloop Satellite, 8 guns, 1420 tons, and 950 h-p., which will shortly hoist the pennant for the first time, and sail for the Pacific, with a complement of 150 men.

RUSSIA IN THE NORTH PACIFIC. The Admiralty has received a long despatch from Vice-Admiral Willes, who has recently visited Vladivostock, in order to personally view the reported large extension of the Russian Naval Station, now in progress at that place. He reports that a new dock for repairing ships and a slip for constructing smalled armed craft are in hand. A factory for the manufacture of torpedoes and additional batteries to strengthen the defence of the place, are employing several hundreds of hands in their construction. The Siberian flotilla, instead of comprising, as formerly, two aged schooners, and three obsolete gun vessels, now consists of two floating batteries, four schooners and five gunboats of the newest description. According to all accounts, Russia now seems fully determined to constitute herself the leading naval power in the North Pacific. NOTES AND ITEMS.

The steam-yacht Ceylon arrived at Calcutt January 27th, and at Penang February 3rd, all well. The largest sailing vessel ever constructed of steel, was recently launched at Belfast., She is named the Garfield, 2220 tons register, 292 feet long, 24 feet 9 inches deep, and 41 feet broad, and has been built for Messrs. Ismay, Imrie & Co. Being intended for the Australian and Californian trade, she will probably touch at Honolulu some day. The Government of Fiji having now escablished direct communication between that col ny and New Zealand, all Fiji mails from this country will beneeforth be forwarded from here by way of San Francisco, this being the quicker route, instead of via Brindisi, as heretofore. The last Australian mail from here via San Francisco consisted of no less than 286 bags. The following book has just appeared * here: " Percy Pomo, or The Autobiagraphy of a South Sea Islander. A Tale of Life and Adventure (Missionary, Trading and Slaving) in the South Pacific. Mr. Theo. H. Davies of Honolulu has addres ed a letter on the subject of Hawaiian labor laws to the Times, which and a full copy of which is appended to this was published in that paper on January 25th.

LETTER No. 78.-LONDON. Feb. 20, 1882.

HON. H. A. P. CARTER, the Hawaiian Ambassador to the Court of Portugal, accompanied by Miss Carter, arrived in the White Star steamship Germanne at Liverpool on the 13th instant. He came to London next day, and is now staying at the York Hotel, in Albemarle-street. He will probably proceed to Lisbon in course of this week, going by way of Paris and Madrid.

TRANSIT OF VENUS. Although the results of the British observations of the transit of 1874 nave long since been made known, the full account of the observations themselves have only recently been published under the editorship of Sir George Airy, the Astronomer Royal. In the introduction he morms us, that after Captain (now Colonel Topman had completed the reduction of the parts relating to the observation districts of the Hawaiian Islands. Honolulu, Kailua, Hawaii; and Waimea, Kanai. He left England in the autumn of 1880, leaving the preparation of the reports from the other stations to be personally superintended by himself, the whole being completed last June. This year's transit takes place on December 6th. At Greenwich the Ingress only will be visible at 2 p.m., as Venus sets at 3:50 p.m., while at Honofulu the Egress only will be seen at 9:30 a.m., the sun rising at 6.30. After this there will be no other transit of Venus till the year 2004.

NOTES AND ITEMS. Vice-Admiral Stirling, late Commander-in-Chief, arrived at Plymouth on the 11th instant by the West India Mail steamer from Panama. Prince Henry of Prussia will join the staff of the new corvette Olga. Captain Von Seckendorff, in July next for a 14 month's cruise to the principal ports on the east coast of South and Central America and in the West Indies. Some time ago I wrote that Sir Arthur Gordon, Govenor of New Zealand, would visit England during next spring, but I now hear that he has abandoned the Labels, ntention, having decided to remain in the colony. Late advices from the West Indies state that the canes? are now ripening fast and reaping operations are beginning, while the planting o tne young crop is expected to be equal to last year's, viz: 52,000 hbds. The first excavation on the Panama Canal was begun on January 20th at the station of Emperador before the Government authorities, and the town of Panama celebrated the event by a fête.

NAVAL AND SHIPPING. Admiral Lyons arrived at Callao from Panama Business, with the Triumph and Thetis on the 5th instant and left on the 15th with five other ships of the squadron on a cruise for Caldera and Valparaiso, to arrive March 30th. The Russian Government has determined not to recall during the present year any of the vessels on the Pacific station, but also to dispatch thither the frigate Duke of Edinburg and the crusier Zabiaka, at present stationed in the Mediterranean. The Duke of Ediubnig passed through the Suez Canal last week. A telegram from Pernambuco, dated 8th inst., states that a collision occurred between the Mauna Loa (Hawaiian?) from New York and the Ethiopian at Maclio. The steam yacht Ceylon arrived at Singapore on the 7th inst., and sailed for Manila on the 9th. She is 20 days behind her schedule time and will not reach Honolulu before the first week of April, from Yokohama. The Adolph cleared on the 2d instant from New Castle for Honolulu. F. B.

It is complained of Shakespeare that he unnecessarily murdered Hamlet. But he has been paid out for it. A great many Hamlets have murdered Shakespeare.

MISTRESS (to new girl from the country districts).-" Jane, you've not let the bath water off as I told you. How is that?" Jane (who water off, is it? And only you and the master washed in it. Bedad, if you waste water like that you'll come to know the want of it."

The only place to buy GENTS GOOD CLOTH-ING at the very LOWEST RATES is at CHAS. J. FISHELS' POPULAR STORE.

Hew Idvertisements.

TOOTING OWN HORN!

By reading of the vehicles of the nations of the Antique World, we learn that their chariot wheels were made of solid blocks of wood, similar to those made up by the schoolboy of to-day in his first effort at carriage making; and it must be said, notwithstanding the progress made in the means of locomotion in these modern times, the primitive solid block wheels are still in use in the wine grow-

ing Islands of the Eastern Atlantic, and on the coast of Africa. However,

M. J. ROSE, in his establishment on King Street, offers the finest specimens of modern art in carriage manufacture. He presents the farthest remove from the solid block, in the production of the most perfect combination of lightness and strength in his wheels, and offers the most surprising results of vehicular mechanism in his admirable

CARRIAGES! - LIKEWISE -Dump Waggons, Jagger Waggons, Mule Carts, and
